Company Profile

With 30 years of experience, we specialize in providing innovative solutions to cosmetic product manufacturers worldwide.

Our presence spans 50 countries, backed by solid distribution and import agreements across all five continents through an extensive international network of partners and specialized manufacturers.

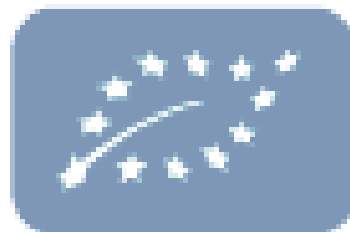

We offer a wide range of products designed to meet the latest trends and requirements of the cosmetic market. Our portfolio includes:

- Innovative ingredients for skin and hair care
- Botanical extracts
- Color solutions
- Encapsulated actives
- Preservatives
- UV filters
- Hair bleaching
- Release systems

At SPECIAL CHEMICALS, we are committed to delivering high-quality ingredients and solutions to help our clients create exceptional cosmetic products.
